That's a great idea - for some reason I didn't see your post here before. I'll add that category in the next couple of days.

I think the criteria should be:

Styling
Comfort
Grip
Weight
Durability
Value for money

Any others?

I just added the Shoes category. It's got one extra criterion - Support - which is different from Grip.

Please help me to hit some other forums to get people to review their tt shoes here.

Oops, sorry your profile image got lost. I changed the way profiles are handled here - you'd have to re-upload it.
